Hello all, Carlos Sanchez (214-665-8507, sanchez.carlos@epa.gov) will be taking over for me while I'm on leave. Please call Carlos with any questions you may have about the Site. I am hoping to work from home starting around May 27th. My cell phone number is listed below. Jessica, Phillip, could you please forward this e-mail to your contact list.

Stephen, attached is the EPA's approval, with modifications, of Addendum 1. Note that the comments require NORCO to schedule a meeting upon obtaining access to background sampling locations for the EPA's approval and to discuss how the extent of contamination will be determined for the areas identified in Comments E (Section 3.1) and G (Section 3.4), including other areas. Also note that Comment H (Section 4.3) requires a discussion of the investigation of deeper WBZs since organics have already been detected in the shallow ground water during the Phase I investigation. I will be back to work, from home, around May 27th, so maybe we can schedule the requested meeting around this time frame. Hopefully access for background sampling locations has been obtained by then.
